

Never Settle for Less.

→ OVERVIEW

Con-way Freight delivers fast, consistent less-than-truckload (LTL) performance and best-in-class service across North America. Con-way Freight's single network of more than 365 operating locations ensures direct coverage to markets of every size. This optimized network provides improved exception-free delivery, better on-time service performance and faster transit times regardless of length of haul.

Con-way Freight also extends customers' reach by providing full-service LTL throughout Canada and cross-border service to and from Mexico. With over 25 years of industry experience, Con-way Freight delivers exceptional, responsive customer service at every level with the most experienced people in the business. And Con-way Freight's state-of-the-art technologies ensure visibility, help customers save time, and provide them with the confidence that their freight will be there — when and where they need it.

→ CON-WAY FREIGHT — AT A GLANCE

- Improved exception-free delivery from an optimized network
- Reliable on-time performance through a single network
- Faster transit times resulting in shorter supply chains, lower costs and increased efficiency
- More direct delivery points in the U.S. than any other single carrier
- State-of-the-art online shipping tools for complete visibility
- Seasoned professionals who understand and respond to customers' business needs
- Industry-leading asset-based less-than-containerload (LCL) service from Asia to the United States, Canada and Mexico
- Guaranteed service for time-critical shipments
