# **GET A SINGLE-SOURCE SOLUTION FOR COMPLEX SHIPPING CHALLENGES.**

**REDUCE COSTS AND INCREASE EFFICIENCY  
WITH CON-WAY'S CONSOLIDATION  
& DISTRIBUTION SERVICES**

***Con-way***<sup>®</sup>

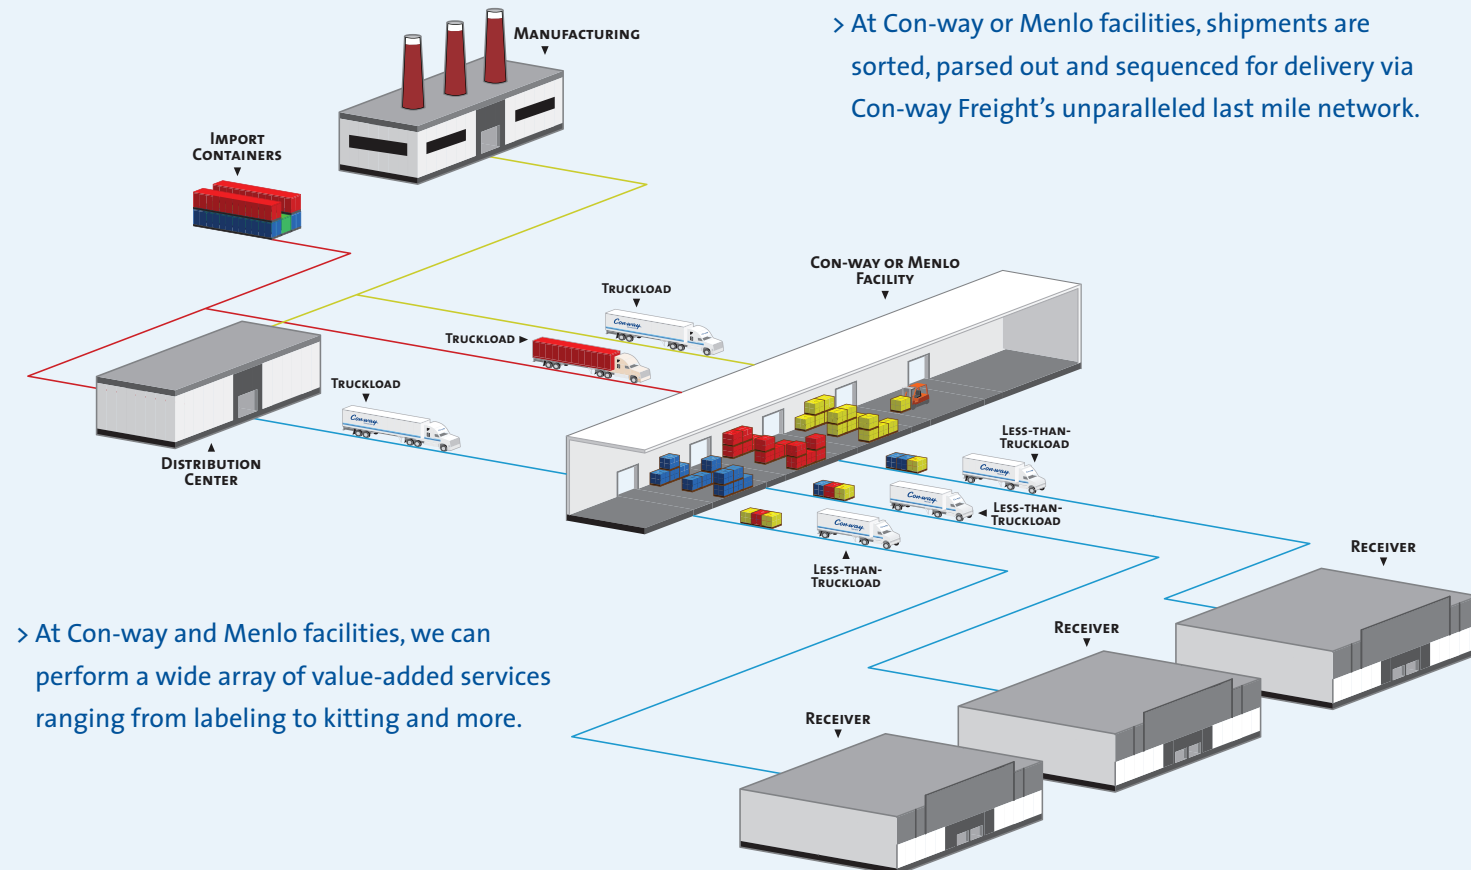

*Never Settle for Less.*

# HOW IT WORKS

> Whether you are importing or producing products within North America, Menlo Worldwide Logistics can engineer a cost-effective service network of Con-way Truckload assets and third-party carriers. We can sequence deliveries through distribution centers or bypass them and sequence deliveries through a Con-way Freight or Menlo facility.

> At Con-way or Menlo facilities, shipments are sorted, parsed out and sequenced for delivery via Con-way Freight's unparalleled last mile network.

> At Con-way and Menlo facilities, we can perform a wide array of value-added services ranging from labeling to kitting and more.

## CONSOLIDATION & DISTRIBUTION:

- Lowers transportation costs
- Streamlines your supply chain, as asset- and non-asset-based operations can be tailored and integrated in any combination to maximize production management, distribution or fulfillment strategies
- Gives you excellent service performance — faster than a distribution center-based move — without the extra inventory time
- Handles every aspect of your shipping needs
- Provides capability to surge without compromising reliability by leveraging both asset-based and non-asset-based services
- Solves your most challenging issues with the combined knowledge and extensive expertise from Con-way Truckload, Menlo Worldwide Logistics and Con-way Freight

## A SINGLE-SOURCE SOLUTION

Consolidation & Distribution at Con-way is a unique combination of transportation resources and logistics expertise, designed to increase operational efficiency and improve your bottom line, while solving some of the most challenging supply chain problems. By utilizing our Consolidation & Distribution services, companies get a single-source solution for complex shipping.

Consolidation & Distribution through Con-way can include a full range of services, or just focus on the basics. By leveraging our portfolio of services, including logistics, full truckload, and less-than-truckload, we can engineer a network, handle the linehaul, cross-docking and final mile to ensure your success. We'll orchestrate trailers or containers from multiple locations and delivery to strategically located Con-way or Menlo facilities across North America, where we can perform value-added services or cross-docking and synchronize deliveries on your desired date.

## CUSTOMERS BENEFIT WITH:

- Simplicity — our integrated solution can handle every aspect of your shipping needs
- Capacity — get assets when you need them with Con-way's hundreds of locations and tens of thousands of trucks across the U.S., and access to our extensive third-party resources, all with the proven reliability of our network
- Flexibility — use the network as much or as little as you need, based on your unique requirements — we provide both asset-based and non-asset-based services
- Expertise — solve your most challenging issues with the combined knowledge and expertise of our transportation experts at Con-way Truckload, Menlo Worldwide Logistics and Con-way Freight

# FOR ANY SHIPPING OR LOGISTICS CHALLENGE, OUR EXTENSIVE EXPERTISE, WIDE RANGE OF SERVICES AND NETWORK COVER THE MAP.

## AN INDIVIDUAL APPROACH GETS THE BEST RESULTS

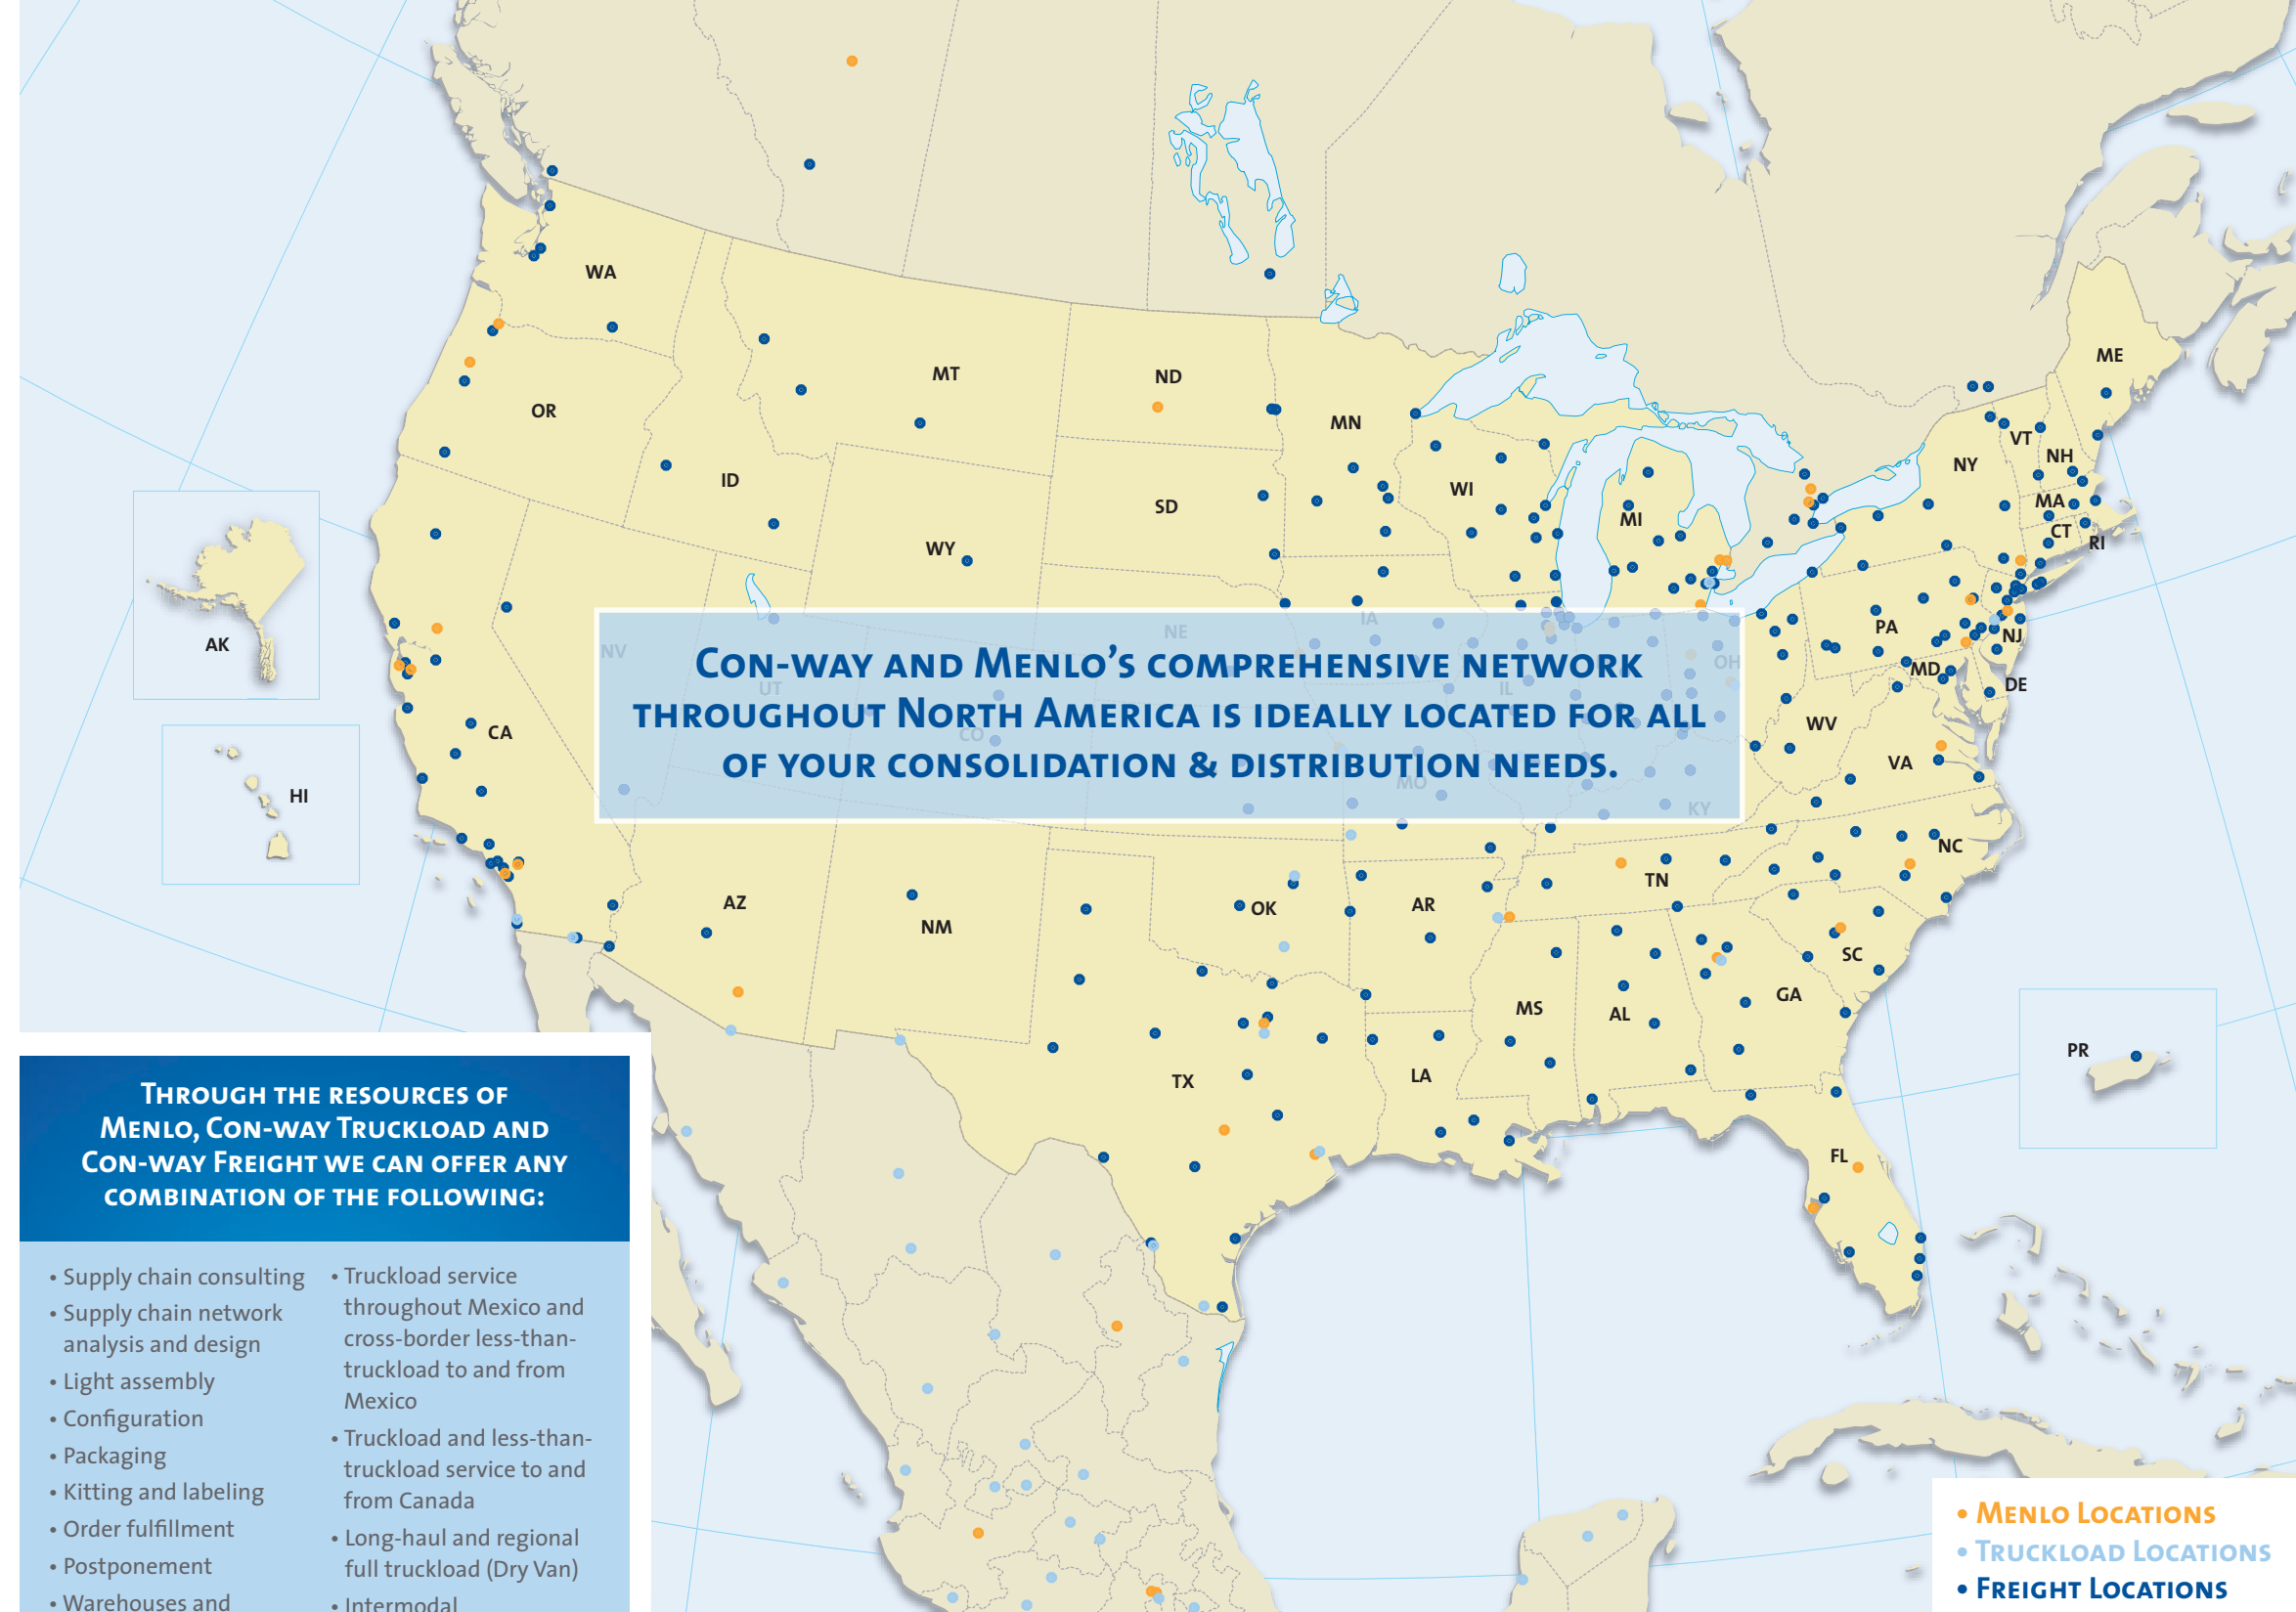

With Con-way's Consolidation & Distribution service, you reduce order cycle time and optimize the flow of materials and finished goods. Whether you're bypassing distribution centers or need custom-designed solutions that can remove costs from your supply chain, we deliver. Con-way's Consolidation & Distribution service gives you a competitive advantage — and the peace of mind that comes from working with the industry's best single-source provider of these services.

- We can review your shipping patterns to determine whether a consolidation or distribution program is the appropriate model for your shipping needs
- We can work with you to determine the most effective combination of services and resources to meet your needs
- We can implement a solution, drawing, as needed, on the extensive resources of Con-way Inc. and the largest single network in North America

## A STREAMLINED SUPPLY CHAIN FOR SIMPLIFIED SHIPPING

Con-way helps customers reduce transit time and total delivered costs. We accomplish this by leveraging a unique combination of services, experience, and our unparalleled network of distribution centers.

- Orchestrated capacity to meet promotional, store opening and other time-sensitive supply chain needs
- Con-way's single-source solution can provide simplified pricing, invoicing and shipment tracking
- Consolidation & Distribution with Con-way moves goods faster and more reliably to keep inventory, warehousing and transportation costs down
- Because goods move faster, customer satisfaction goes up, aiding customer retention and increasing your competitive advantage
