

Con-way Freight Offers 25% Faster Transit Times for Cross-Border Shipping

- The Canada Border Service Agency's (CBSA's) Advanced Commercial Information (ACI) eManifest program will be mandatory.
- ACI currently requires cross-border shippers and carriers to file electronic manifests for Canada-bound shipments one hour prior to their arrival at the Canadian border.
- Con-way Freight has been filing electronically for several years.
- Con-way Freight participated in a CBSA pilot project, giving the company unique insight into the requirements.
- At Con-way Freight, we have over 20 years of cross-border experience and nine crossing points on each side of the border.
- We offer shippers 25% faster transit times to and from Canada versus other national LTL carriers.
- Customers receive peace of mind knowing over 95% of all our freight crossing the border clears Customs without issue.
- Con-way Freight offers customers lower carrying costs, less inventory in hand, just-in-time inventory management and greater customer service satisfaction.
