WEB TOOLS

SIMPLIFY AND STREAMLINE YOUR SHIPPING WITH CON-WAY FREIGHT'S WEB TOOLS.

Con-way
FREIGHT

Never Settle for Less.

Con-way Freight's web tools deliver the ease of use, tracking capabilities and other features that save you time and increase your efficiency.

Our full suite of online tools allows you to streamline your shipping activities and increase visibility without leaving your desk. With our customizable My Tools capability, you can select web tools that exactly meet your needs, saving you time and money.

To get the most out of our full suite of web tools, including account-specific rate quotes, pickup requests and bills of lading, all you need to do is become a registered user. Register at www.con-way.com/freight/register.

⇢ PREPARING FOR SHIPMENT

As you get ready to ship, our web tools help you easily get the information you need to make shipping faster and more efficient. You can request a rate quote, check transit times, schedule shipment pickups, check currency rates, and find the service center nearest you.

Customize My Tools to select the web tools that match your needs.

Our web tools make getting rate quotes fast and easy. In addition to generating a rate quote for your next shipment, you can use our handy shipment calculators and create a pickup request or an electronic bill of lading (eBOL).

⇢ DURING SHIPMENT

Once your shipment is in transit, you can access status information, giving you visibility into your shipment and peace of mind. Track by single or multiple PROs, POs, BOLs, or customer reference numbers.

Con-way Freight's web tools deliver status updates that give you greater visibility into your shipments. You can review inbound and outbound manifests, sign up for email or text notification of shipment status, review bills of lading and more.

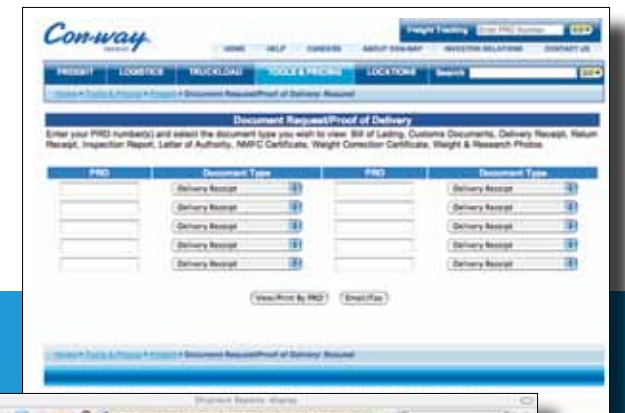

⇢ CONFIRMING SHIPMENT

Once your shipment arrives, you can generate additional reports you need to finish your shipping tasks, including on-time performance reports, email or text notification of shipment delivery, shipping manifests, on-demand copies of freight bills and more.

The proof of delivery feature helps you keep track of completed shipments. With proof of delivery sent to you via email, you have the confidence and peace of mind that your shipment has reached its destination on time.

Summary reports are one of the most popular features on our web tools suite. They make your shipping experience better by including detailed reporting that lets you trace a specific shipment and view the associated shipment documents. These dynamic reports include historical and year-to-date data in an easy-to-read format.

Use our responsive web tools and get complete visibility into your shipments and Con-way Freight's reliable performance. You'll have confidence that your shipments will get there when they need to be there – and the satisfaction of saving time and increasing efficiency.

Become a registered user and simplify your shipping now with Con-way Freight's web tools: www.con-way.com/freight/register.
