LEAN Philosophy

Menlo has integrated LEAN principles into every aspect of our company. This commitment is the foundation of the continuous improvement programs we develop for each of our customers. LEAN is not a program, a project or a part-time process; it is our core operating philosophy and a fundamental part of how we do our daily work. Instead of reactively focusing on problems, we proactively focus on flow, adding value and reducing waste.

精益理念

精益原则已融入到万络运作的各个方面。万络的这一承诺，是我们不懈地为每一个客户制定持续改进方案的坚实基础。在万络，精益物流不是一个程序、项目或者一段过程，它作为我们的核心理念早已渗透于我们的日常工作中。相对于被动地关注问题本身，我们则更注重流程改善、增值以及减少浪费。

4PL- Supply Chain Transformation

Menlo Worldwide Logistics helps your business implement best-in-class supply chain solutions that provide a continuous flow of value from the supplier all the way to your end customer, at the lowest cost. We'll align your global supply chain with your long-term business strategy and deliver increased earnings per share.

Menlo's 4PL solutions are focused on collaboration – we work with you to create a flexible supply chain solution that supports your unique corporate strategy while increasing supply chain savings and service improvements. The value the 4PL delivers to a customer is primarily built upon savings realized through the integration of their supply chain, the monitoring and management of supply chain performance and the implementation of continuous improvement programs within the customer's organization. The objective is the elimination of waste and an increase in supply chain competencies.
