Value Proposition:

Operational excellence
Lean philosophy
Strong company culture
Customer focused
Start-up methodology
Process driven
Global presence

Located close to the port of Rotterdam and the adjacent industrial area, our Rotterdam facility offers a wide variety of logistics services. The close proximity to the sea port makes this facility ideally located to function as a regional or pan-European distribution center for imported products. The facility also has a separate extensive staging area for light assembly of product in a controlled environment. The light assembly service can be used as a product completion operation, supporting an inventory strategy of creating finished goods upon receipt of customer orders.

Features:

- Multi-client facility servicing customers in the high-tech industry
- TAPA A certified
- Lean Silver certified
- 8,500 m²
- 10M clear ceiling height
