Con-way Truckload Customer Service

Con-way Truckload’s customer service begins long before your freight reaches its destination. An initial discussion with your salesperson is followed by booking your load with a courteous and efficient customer service representative. Before pickup, you will receive a follow-up call to obtain other important information and directions. You can always track your load online and confirm that your shipment has been safely delivered.

Our experienced people know you.
Our customer service groups specialize in geographic service areas, as well as specific accounts. All Con-way Truckload customer accounts have a primary and secondary representative to ensure your shipment arrives safely and on time.

Bilingual customer service representatives to assist you.
Mexico is an important market for Con-way Truckload and our customers. Our bilingual customer service representatives are ready to answer questions and provide assistance in either English or Spanish.

We anticipate the details.
Con-way Truckload pays attention to details others might overlook.

- Our dispatchers monitor weather conditions. If there are weather delays in your area, we will reschedule pickups to ensure on-time delivery.
- Continuous system information updates allow for fleet managers to quickly know if a change in scheduling is required.
- If a bill of lading is different than planned, our drivers are trained to alert Con-way Truckload of any changes, and a customer service representative will call you to verify the correct information before the load is dispatched.

Con-way Truckload customizes our service to your needs to give you the best shipping experience in the business.
